

1. K-LOVE is an integral part of our community, and many in our area have this as our only Christian music station.
 2. Our community would be negatively affected if K-LOVE were to be displaced by an LPFM broadcaster providing other programming.
 3. K-LOVE service is in the public interest for a number of reasons. One is that, as mentioned, it is the only Christian music station for many. Another reason is tied directly to the K-LOVE saying, "Positive and Encouraging". Many FM stations play what may be popular, but by no means could be considered positive and encouraging (one example would be 98.7 in our area, now broadcasting talk radio at night about sexual issues, quite disgusting at times).
- I would like to strongly "vote" for not limiting the abilities of K-LOVE, or other stations like them, to impact our communities in positive and encouraging ways.
